CIRCULAR FOR CLASS X

TIS/ VV/ 2021-22/023

June 2021

MATH STANDARD & BASIC

Dear Parent

As per the CBSE guidelines, students of Class X can **choose** between two levels of Mathematics offered for the Board Examination. The nomenclature for the two Examinations used by the CBSE is **Mathematics-Standard (Subject Code-041)** and **Mathematics-Basic (Subject Code-241)**.

Some important points that you are required to understand before making a choice are as follows:

- **The students will be studying the same syllabus for both Mathematics Standard and Mathematics Basic.**
- **However, the difficulty level for the exams in both the Mathematics will be different.** Mathematics-Basic will have easier level of questions in the examination whereas, Mathematics Standard will have a higher difficulty level. The school will offer these two levels of Exam during the Mid Term, Revision test and Pre-Board exam.
- The Standard level is meant for students who wish to opt for Mathematics at Sr. Secondary (XI-XII) level and the Basic level is for students not keen to pursue Mathematics in XI - XII.
- A student will have to choose between the two levels of Examination before the time of submission of List of Candidates (LoC) by August. The choice once made will not be changed.
- A student who qualifies Mathematics-Basic in the Board examination 2022, shall be given an option to appear for Mathematics-Standard at the time of Compartment exams as per CBSE guidelines, in case she/he changes her/his mind to pursue Mathematics at Sr. Secondary level.

We request you to assist your ward to choose the level of examination, keeping in mind her / his aptitude for Mathematics and the stream she/he wishes to opt for in Class XI. Please fill the Google form link by **Monday, 12 July 2021**.
