

CIRCULAR FOR CLASSES IV TO X

TIS/ VV/ 2021-22/091

September 2021

Dear Parent

Technology will be the gateway to success in the forthcoming years. Artificial Intelligence (AI) and Machine Learning (ML) are two important branches of technology that students should study. With this in mind, we bring an opportunity for our students to learn AI and ML from amazing academicians from IBM & UC Berkeley. The series of workshops and webinars will be conducted from 8th - 11th **October 2021**. The curriculum is designed to give students the chance to utilize AI and ML techniques to tackle global challenges in a holistic manner, thereby giving an understanding of design thinking, strategy and business model development, ethics, social responsibility and pitching skills. Guided by key industry mentors, students will be exploring the following topics according to the itinerary:
