April 2023

ART PURSUIT & SKILL CLUB

Dear Parents,

"The future belongs to those who learn more skills and combine them in creative ways"

Robert Greene

At TIS, we continuously endeavor to simulate an environment that goes beyond conventional academic learning. One such initiative is the integration of Skill Education in classes VI to VIII through Skill Club activities. These activities are designed to encourage students to think, evaluate and apply what they have learned, thus gaining real-life skills.

We also incorporate Performing Arts and Visual Arts in the form of Art Pursuit activities that are designed to enable students to explore and know their abilities.

Each student is required to opt for **ONE ART PURSUIT** and **ONE SKILL CLUB** activity. She / he will continue with the same Art Pursuit till grade VIII. However, the Skill Club activity is for the duration for one session i.e. 2023-2024 only. The allotment of the activities will be done on the basis of her/his choice **and** availability of seats for that particular activity. In case any activity is oversubscribed, then the allotment will be done through draw of lots. The details are given below:

I. ART PURSUIT OPTIONS:

1. Theatre / Skills for Life	4. Western Vocal Music
2. Public Speaking	5. Indian Vocal Music
3. Painting	6. Indian Classical Dance

II. SKILL CLUB OPTIONS:

The student can opt for any one club from either the school skill clubs or the paid club.

1. Handicrafts	7. Design Thinking	PAID CLUB 12. Astronomy (details overleaf)
2. Mask Making	8. Data Science	
3. Travel & Tourism	9. What to do when Doctor is not around	
4. Mass Media	10. Financial Literacy	
5. Culinary & Baking	11. Pottery	
6. Herbal Heritage		

Details of Paid Club option:

1. Astronomy Club–

Astronomy & Space Science are the most effective ways to inculcate a scientific temper. We are offering the Astronomy Club in collaboration with SPACE INDIA, a pioneer organization with a legacy of 22 years in developing Astronomy, Space Science and STEM education at grassroots levels and beyond. The club brings a hands-on approach to learning and makes a student explore nature to derive science. The various interactive activities presented, have been designed to inculcate the spirit of enquiry and logical thinking.

The program fee is inclusive of a kit having activity materials, a 50 mm Refractor telescope and an overnight visit to Sariska.

- No. of sessions - 24
- Fee – INR 11,500/- (non-refundable)
- Mode of Payment- Cheque in favour of 'SPACE TECHNOLOGY AND EDUCATION PVT LTD'

* Note: In case we do not get minimum 25 students for the paid club, we will not run it and your ward will be granted another open option.

Please send the duly filled Choice Form, along with the cheque (in case opting for the paid club), to the class teacher latest by **Thursday, 06 April 2023.**
