Dear All

It's time for us to wish you adieu and for you to look forward to new horizons, challenges and excitements. As ADULTS, you are going to be responsible for your decisions and actions. Choose wisely as there will be no going back; try to excel and not give in to mediocrity; be focused and explore new avenues and opportunities. Remember, success is possible in all walks of life, if you have passion and perseverance. Good Luck and let me remind you-we will always be there for you.

Dear Students

This is undoubtedly a bittersweet moment as we bid goodbye to you all! While your journey may have come to an official end with TIS, the bond that we share will surely continue to last. Students are an integral part of a school; you make us more than we make you. To see you leave brings forth a multitude of emotions, but I am extremely proud to bid farewell to an extraordinary group of young individuals who have grown into confident and accomplished young adults. There will be no greater joy than seeing you all make a mark for yourselves as you step into the outside world. Of course, at this poignant juncture of your life you would inevitably be filled with a lot of emotions. As you embark on your new journey, I want to remind you that your time with us at TIS has more than prepared you all to face the world with confidence and self-worth. Remember, beyond textbooks and examinations, you have learned the importance of teamwork, empathy and integrity. Persistent hard work and faith in your abilities will take you very far. Never be afraid to speak up when no one else does and never be filled with self-doubt. Remember to hold on to these lessons as you face new challenges and opportunities in the future. The way you have carried yourselves as remarkable students of TIS fills me with immense pride and joy and that obviously translates towards my high expectations from all of you. My best wishes!

#### Q. Your favourite school tradition.

A. Bunking assemblies. In high school, I barely attended 4-5 normal assemblies (bunking a special assembly is genuinely a difficult task and I still consider bunking 1 special assembly in my entire school life an achievement). Giving reason for not attending it to your class teacher is the more difficult task, especially when you've the same class teacher for 2 years who knows you pretty well.

#### Q. Two lines from your favourite song that best describes your school life.

A. We've come too far to give up who we are, so let's raise the bar and our cups to the stars.

#### Q. What have you learnt here that you haven't learnt elsewhere?

A. Importance of true friends. I've been lucky enough to have a few people by my side, right from nursery till the end of my school life. Along with making the class a fish market (as said by our beloved teachers), these guys have also supported me over the years in my downs, helping me become a better version of myself.

### Q. What have you learnt here that you haven't learnt elsewhere?

A. Since the school is the only place, I believe we spend like 12 years learning, I have definitely learnt a lot but the one thing that I haven't learnt elsewhere is 'It is never too long', just the way the school life which seemed troublesome in the beginning, will soon become just a memory for us. This makes me believe that we all should enjoy every moment of our life.

### Q. Your favourite school tradition.

A. Ah, the school fete, a cherished tradition that resonates in the corridors of nostalgia. Everyone—students, teachers, and families—come together for fun. There are games, yummy food, and a lively atmosphere that makes the school feel like a magical place. It's not just a day of joy but a tradition that creates lasting memories, bringing us all closer and making school a special and unforgettable experience. Dancing your life out, scaring the ghosts in the Bhooth-Bangla, and savouring all kinds of food. No matter how many times you went on the Columbus, it was never enough!

### Q. Two lines from your favourite song that best describes your school life.

A. "Ye dil jo dhala teri aadat me Shaamil kiya hai ibaadat me Thodi Madhu ma'am se bhi maafi ho Mere liye tum kaafi ho"

### Q. What have you learnt here that you haven't learnt elsewhere?

A. "The sound of lunchboxes opening and the aroma of food in Ranjan sirs' period, scribbling names on tables, waiting to meet that one person in recess, cursing the rain for getting P.E class cancelled, finding shortcuts in cafeteria lines, the entire class rushing to the bathroom at the end of every period, going across the school to fill our water bottles from the junior wing to kill time, the mass bunk polls on the class group, and so much more. The classroom taught us lessons, but it's these memories that taught us how to live a life amidst all the stress. And it is these memories which we treasure and carry with US forever to cherish. "
