CIRCULAR FOR CLASSES NURSERY TO XII

TIS/ VV/ 2025-26/045

July 2025

Dear Parents,

We are delighted to share some exciting developments with you as part of our continuous endeavor to provide a safe, comfortable, and enriching environment for our students.

1. As part of our infrastructure enhancement initiative, the school has **installed air-conditioning units in the Kindergarten and Class I classrooms**. This is over and above the Nursery classes, which were air-conditioned last year. This will ensure that our youngest learners are provided with a more conducive learning atmosphere during the hot summer months. **Going forward, the school aims to add AC units to more classrooms each year as part of a phased implementation plan.**
2. Additionally, we are pleased to inform you that **a new air-conditioned school bus** has been added to our fleet and will operate on **Route No. 16** on a **trial basis** for the current academic year. This service is being offered **at no additional cost to the parents** during the trial period.
3. Based on the feedback and feasibility, the school plans to **introduce more AC buses from the next academic year**. Please note that this future enhancement will involve an **approximate transport fee increase of 20-25%**, depending on the operational costs associated with the upgraded transport service.

We look forward to your continued support as we strive to provide the best possible facilities to our students.

Ms. Jyotika Jakhar
Principal
