Dear Parent

- As per the CBSE guidelines, students of Class X can choose between two levels of Mathematics for class X Board Examination- **Mathematics-Standard (Subject Code-041)** and **Mathematics-Basic (Subject Code-241)**. Your ward can decide on the level of Mathematics, she/ he wishes depending upon her/ his aptitude and abilities in Mathematics.

Important points to be understood before making a choice are as follows:

- The syllabus, classroom teaching and internal assessment for both levels will remain the same.**
- The difficulty level for the exam will be different.** Mathematics-Basic is the easier level of examination.
- The school will offer differentiated levels of Exam only during Pre Board Exam (in December) and Practice Test (in January)
- The Standard level is meant for students who wish to opt for Mathematics in Class XI and the Basic level is for students not keen to pursue Mathematics beyond Class X.
- A student has the right to choose between the two levels of Examination at the time of submission of List of Candidates (LoC) for Class X CBSE Board Examination. Since the LoC has to be filled in August-September, the choice made by the student should be conveyed to the Class teacher by **Friday, 25 July 2025**.

We request you to assist your ward in opting for the right level as the option cannot be changed once LOC is submitted to CBSE. Please fill out the given form and submit it to the class teacher.
